

NORTH SHORE EMERGENCY ASSOCIATION

MEMBERSHIP INFORMATION REQUEST FORM

If you are interested in utilizing the NSEA and NSEA affiliated repeaters, permission can be arranged separately from joining NSEA by registering all your contact information. GMRS custom and usage is that the service is for personal messages but not extended conversation ("rag chewing"), which we believe is more appropriate in the Amateur Radio Service (Ham). If your anticipated repeater use is compatible with this, please fill in this form and send it with your comments to Info@NSEA.com.

If you are interested in using your GMRS radios for public service, we would be glad to have you consider joining NSEA. If you are not already aware, we host a Radio Net every Sunday evening on .675 and all licensed operators are welcome and encouraged to check in. Our bi-monthly Monday night meetings are held at a restaurant in Glenview, Illinois. Please free welcome to ask any further questions you may have.
